

## Risk Management Solutions

### Insurance for peace of mind!

**With insurance planning, you can guarantee your and your family's financial security while protecting your property, investments and income.**

### Our offer:

**We will evaluate your insurance needs accurately.**

Your advisor will draw up an optimal insurance plan, based on your objectives as well as lifestyle-related information. He or she will provide you with advice on realizing your projects, and will support you during each stage of the process:

- Analyzing your current coverage
- Calculating the related costs
- Determining the potential risks and situations that could cause financial losses

Following this analysis, a specialist will design insurance strategies that match your financial objectives and develop an action plan.

### We add value

By taking stock of your situation and ensuring your and your family's financial security in an uncertain future.

Our financial planners are registered under the licence of National Bank Securities, a wholly-owned subsidiary of National Bank of Canada.

Because you are unique
