#### **Notes to users**

- 1) The quantitative information in this document has been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), unless otherwise indicated, and should be read in conjunction with the Report to Shareholders for all quarters of 2023. This supplementary financial information (SFI) is unaudited and should be read in conjunction with the 2022 Annual Report (including audited consolidated financial statements and accompanying management's discussion and analysis). Additional financial information is also available through our quarterly investor presentations as well as the quarterly conference call webcast. All amounts are in millions of Canadians dollars, unless otherwise indicated.
- 2) Information related to regulatory capital as well as Pillar 3 and risk disclosures required by the Enhanced Disclosure Task Force (EDTF) is provided in the document entitled *Supplementary Regulatory Capital and Pillar 3 Disclosure*, which is available on the Bank's website at <a href="mailto:nbc.ca">nbc.ca</a>.

#### 3) Non-GAAP Financial Measures and Other Financial Measures

The Bank uses non-GAAP financial measures that do not have standardized meanings under GAAP and that therefore may not be comparable to similar measures used by other companies. Presenting non-GAAP financial measures helps readers to better understand how management analyzes results, shows the impacts of specified items on the results of the reported periods, and allows readers to assess results without the specified items if they consider such items not to be reflective of the underlying performance of the Bank's operations. In addition, like many other financial institutions, the Bank uses the taxable equivalent basis to calculate net interest income, non-interest income, and income taxes. This calculation method consists of grossing up certain tax-exempt income (particularly dividends) by the income tax that would have been otherwise payable. An equivalent amount is added to income taxes. This adjustment is necessary in order to perform a uniform comparison of the return on different assets regardless of their tax treatment. For additional information on non-GAAP financial measures, see pages 12 and 13 in this document and the Financial Reporting Method section on pages 4 to 8 of the Management's Discussion and Analysis (MD&A) in the Report to Shareholders for the First Quarter of 2023, which is available on the Bank's website at nbc.ca or the SEDAR website at sedar.com.

#### Other Financial Measures

For additional information on the composition of non-GAAP ratios and supplementary financial measures, as well as on capital management measures, see the Financial Reporting Method and Glossary sections on pages 4 to 8 and 45 to 48, respectively, of the MD&A in the Report to Shareholders for the First Quarter of 2023, which is available on the Bank's website at <a href="mailto:nbc.ca">nbc.ca</a> or the SEDAR website at <a href="mailto:seearcom">seearcom</a>.

- 4) For the comparative figures, certain amounts have been revised from those previously reported in order to be consistent with the presentation adopted by the Bank for the year beginning November 1, 2022.
  - The Bank reviewed its method for the sectoral allocation of technology investment expenses. Certain expenses incurred for projects, in particular expenses incurred during the research phase, were previously recorded in the *Other* heading of segment results. As of November 1, 2022, all expenses recorded to results for technology projects are immediately allocated to the various business segments that will receive the benefits therefrom.

This review is consistent with the accounting policy change applied in fiscal 2022 related to the costs of configuring or customizing a supplier's software in a cloud computing arrangement.

The changes were applied between the segments and had no impact on consolidated results.
