The Notes must be purchased either directly or indirectly through a participant in the CDS BEO system. No Holder will be entitled to any certificate or other instrument from the Issuer or CDS evidencing the ownership thereof, and no Holder will be shown on the records maintained by CDS except through an agent who is a participant of CDS. This Information Statement is subject to and should be read in conjunction with the Global Certificate. Business Day:	Any day, other than a Saturday or a Sunday or a day on which commercial banks in either Montreal or Toronto are required or authorized by law to remain closed. If a deadline specified in this Information Statement in respect of Notes falls on a day which is not a Business Day, the deadline will be postponed to the following Business Day.
Certain Canadian Federal Income Tax Consequences:	An investor should consider the income tax consequences of an investment in the Notes, including those arising from a disposition of the Notes prior to the Maturity Date. Investors should also consult their own tax advisors as to the overall consequences of their acquisition, ownership and disposition of Notes having regard to their own particular circumstances.
Selling Restrictions:	This Information Statement constitutes an offering of these Notes only in those jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell the Notes. No securities commission or similar authority in Canada has in any way passed upon the merits of the Notes offered hereunder and any representation to the contrary is an offence. The Notes offered under this Information Statement have not been, and will not be, registered under the "United States Securities Act of 1933", as amended or any state securities law and, subject to certain exemptions, may not be offered or sold in the United States or to U.S. persons or other non-residents of Canada.
Eligibility:	Based on the legislation in effect on the date hereof, the Notes will, at the Issuance Date, be qualified investments under the <i>Income Tax Act</i> (Canada) (the "Tax Act") for trusts governed by registered retirement savings plans ("RRSPs"), registered retirement income funds ("RRIFs"), registered education savings plans ("RESPs"), registered disability savings plans ("RDSPs"), deferred profit sharing plans ("DPSPs") (other than DPSPs to which contributions are made by the Bank or a person or partnership with which the Bank does not deal at arm's length within the meaning of the Tax Act) and tax-free savings accounts ("TFSA"). If the Notes are "prohibited investments" (within the meaning of the Tax Act), for an RRSP, RRIF, RESP, RDSP or TFSA the annuitant of the RRSP or the RRIF, the subscriber of the RESP, or the holder of the RDSP or the TFSA (as the case may be) (the "Plan Holder") will be subject to a penalty tax as set out in the Tax Act. The Notes will be "prohibited investments" (within the meaning of the Tax Act) for an RRSP, RRIF, RESP, RDSP or TFSA belonging to a Plan Holder who has a "significant interest" (as defined in the Tax Act) in the Bank or who does not deal at arm's length with the Bank for the purposes of the Tax Act. Investors should consult their own tax advisors in this regard.
Amendments:	In the event that the Bank intends to amend the terms and conditions set forth above, the Bank shall disclose the amendment, and its potential impact on the Coupons payable along with any other amounts payable, in writing to the Holder. Any notice to be given related to the Note will be validly given if communicated by mail, electronic, on the Bank's web site www.nbcstructuredolutions.ca and/or any other means.
Timely Information:	At any time during the term of the Notes, upon request of a Holder, the Issuer must disclose to such Holder without delay the amount of the principal and accrued interest on the day that such request is made. At any time during the term of the Notes, the Holder may also obtain the applicable interest rate from the Bank for any day.
Cancellation Period:	The issuance of the Note may be cancelled by the Bank up to the scheduled Issuance Date.

RISK FACTORS:

An investment in the Notes is subject to certain risk factors that prospective investors should carefully consider before acquiring Notes, including the following factors. **Holders who are not prepared to accept the following risk factors and the risk factors incorporated by reference herein should not invest in the Notes.** Specific risk factors include, but are not limited to:

Suitability for investment: Notes may not be a suitable investment for some investors: An investor should reach a decision to invest in the Notes after carefully considering, in conjunction with his or her advisors, the suitability of the Notes in light of his or her investment objectives and the other information set out in this Information Statement. Neither the Issuer nor the Agent makes any recommendation as to whether the Notes are a suitable investment for any person. The Notes have certain investment characteristics that differ from those of conventional fixed income. The Notes are not designed to be short-term trading instruments and are intended to be held to maturity. An investment in the Notes may be suitable for investors looking for a higher yield than that provided by regular bonds while maintaining the safety of their principal; expecting interest rates to remain stable or gradually rise; looking to diversify the fixed income component of their investment portfolios; and are flexible regarding term extension.

Extension Feature: The Extension Feature of the Notes is unique. As a result of the Extension Feature of the Notes, the price movement of the Notes will be quite different from that of other notes, bonds and similar debt instruments with the same credit risk and term to maturity. For example, if prevailing interest rates fall, the market price of the Notes may be limited to the price applicable to the then existing Maturity Date. Investors are compensated for the uncertainty caused by the Extension Feature of the Notes by receiving a higher yield compared to other debt instruments with a similar credit risk and term to maturity. The decision to extend or not to extend the Notes will be made by the Issuer and will be dependent on a number of factors such as the prevailing interest rates, the Issuer's cost of funds and hedging costs and future market expectations. The decision to extend or not to extend the Notes will be made by the Issuer and may occur at a point in time that is not advantageous to investors. For instance, the Issuer is less likely to extend the Notes during periods of relatively low interest rates. As a result an investor may not be able to reinvest in lower-yielding products.

Secondary Market: There is currently no established trading market for the Notes. The Issuer does not intend to apply for listing of the Notes on any securities exchange or quotation system. The market maker intends to maintain until the Maturity Date, under normal market conditions, a daily secondary market for the Notes. The market maker is under no obligation to facilitate or arrange a secondary market, and in its sole discretion, may stop maintaining a market for the Notes at any time, without any prior notice to Holders. There can be no assurance that a secondary market will be available or that such market will be liquid or sustainable. An investor who sells a Note prior to the Maturity Date may receive sale proceeds that are less than the Principal Amount.

Payments at maturity of the Principal Amount and during the term of the Notes of the Coupons are unsubordinated and unsecured obligations of the Issuer and are dependent on the creditworthiness of the Issuer: The Notes will constitute direct, unsecured and unsubordinated debt obligations of the Issuer. The Notes will be issued on an unsubordinated basis and will rank *pari passu* as among themselves and will be payable rateably without any preference or priority. Because the obligation to make payments to Holders of the Notes is incumbent upon the Issuer, the likelihood that such Holders will receive the payments owing to them in connection with the Notes, including the Principal Amount, will be dependent upon the financial health and creditworthiness of the Issuer.

Notes will not be insured under the Canada Deposit Insurance Corporation Act or any other deposit insurance regime: The Notes will not constitute deposits that are insured under the *CDIC Act* or any other deposit insurance regime designed to ensure the payment of all or a portion of a deposit upon the insolvency of a deposit taking financial institution. Therefore, a Holder will not be entitled to Canada Deposit Insurance Corporation protection.

No independent calculation; Conflict of interest: No calculation agent other than the Issuer or an affiliate will be retained to make or confirm the determinations and calculations made by the Issuer. The Issuer, as calculation agent and National Bank Financial Inc. as market maker of the secondary market, may have economic interests which differ from and may be adverse to those of the Holders, including with respect to certain determinations that the calculation agent must make in connection with amounts owing by the Issuer under the Notes. The Issuer as calculation agent will carry out its duties and functions in good faith and will use its reasonable judgment.

Business activities may create conflicts of interest between the investor and the Issuer: The Issuer or one or more of the Issuer's affiliates may, at present or in the future, publish research reports with respect to movements in interest rates generally. This research is modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Notes. Any of these activities may affect the market value of the Notes.

Notes not qualified by prospectus: The Notes are not qualified by prospectus under applicable Canadian securities laws. No Canadian or other regulatory authority has recommended or approved the Notes, nor has any such regulatory authority reviewed or passed upon the accuracy or adequacy of this Information Statement.

Bail-In Regulations (Notes would be subject to a Bail-In Conversion): Pursuant to the CDIC Act, in circumstances where the Superintendent of Financial Institutions has determined that the Bank has ceased, or is about to cease, to be viable, the Governor in Council may, upon a recommendation of the Minister of Finance that he or she is of the opinion that it is in the public interest to do so, grant an order directing the Canada Deposit Insurance Corporation ("CDIC") to convert all or a portion of the Notes of the Bank into common shares of the Bank (a "Bail-In Conversion").

Risks relating to COVID-19: The COVID-19 pandemic has had disruptive and adverse impacts in the countries where the Bank conducts business and, more broadly, on the global economy. Among other things, COVID-19 sent stock markets into sharp decline and rendered them more volatile, disrupted global supply chains, and provoked a rapid and sudden rise in unemployment and an economic slowdown. The actual impact of the pandemic will depend on future events that are highly uncertain and cannot be predicted.
