National Bank Growth Managed Portfolio (Closed to new purchases)

Category: Global Equity Balanced

Disclosure

National Bank Managed Portfolios (the "Portfolios") are offered by National Bank Investments Inc., a wholly owned subsidiary of National Bank of Canada. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments and the use of an asset allocation service (such as the Portfolios). Please read the prospectus of the funds included in the Portfolios before investing. The funds' securities are not insured by the Canada Deposit Insurance Corporation or by any other government deposit insurer. The funds are not guaranteed, their values change frequently and past performance may not be repeated. The indicated rates of return are the historical annual compounded total returns assuming the investment strategy recommended by the asset allocation service is used and after deduction of the fees and charges in respect of the service. The returns are based on the historical annual compounded total returns of the funds included in the Portfolios including changes in securities value and reinvestment of all dividends or distributions and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder in respect of a participating fund that would have reduced returns.

Investors must enter into an agreement with National Bank Investments Inc., which retains the services of National Bank Trust Inc. (for all activity in Quebec, Prince Edward Island, Saskatchewan and New-Brunswick) or Natcan Trust Company (for all activity in all other Canadian provinces and territories), subsidiaries of National Bank of Canada acting as portfolio managers, which gives them the authority to select, add or remove National Bank Mutual Funds composing the Portfolios.

There are no fees or expenses related to investing in the Portfolios except for the fees and expenses related to investing in the funds that make up the Portfolios. All distributions made by a fund included in the Portfolios will be automatically reinvested for you.
