Features of first diagnosis of cancer insurance

A first diagnosis of cancer insurance ends when we pay an amount following the diagnosis of a first diagnosis of cancer.

6 The cost of your insurance premium varies based on the amount owed on your credit card

The premium is the amount you pay in order to be insured.

The premium is calculated on a monthly basis based on the outstanding balance on your credit card account on the day the statement is printed. It is therefore likely to vary over time.

For the Autonomy Plan, the rate is \$0.79 per \$100 (plus applicable taxes).

When you reach 71 years old, the premium rate is reduced to \$0.69 per \$100 (plus applicable taxes).

We reserve the right to amend the premium rate at any time. If this occurs, the premium-rate changes will apply to all parties insured.
