

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended December 31, 2019

Global Equity Fund

NBI U.S. Dividend Fund

Notes on forward-looking statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-888-270-3941 or 514-871-2082, by writing to us at National Bank Investments Advisory Service, 500, Place d'Armes, 12th floor, Montreal, Quebec, H2Y 2W3, by visiting our website at www.nbinvestments.ca, by visiting SEDAR's website at www.sedar.com, or by contacting your advisor. You may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

The NBI U.S. Dividend Fund's investment objective is to obtain long-term capital appreciation and increase capital while focusing on the generation of dividend income. The Fund invests directly or indirectly in a portfolio composed mainly of equity securities of U.S. companies with large market capitalizations that pay or are likely to pay dividends.

The portfolio manager analyzes equities with a growth-at-a-reasonable-price approach, with a long-term investment horizon. Fundamental research is also conducted to identify securities with growth potential not recognized by the market, that are trading at attractive prices.

Risks

The global investment risk of the Fund remains as described in the simplified prospectus or any amendments thereto and Fund Facts.

Results of Operations

For the twelve-month period ended December 31, 2019, the NBI U.S. Dividend Fund's Investor Series units returned 13.80% compared to 25.07% for the Fund's benchmark, the S&P 500 Index (CAD). Unlike the benchmark, the Fund's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund's series, which may vary mainly because of fees and expenses.

The Fund's net asset value rose by 1.27% over the period, from \$24.00 million as at December 31, 2018 to \$24.31 million as at December 31, 2019.

Encouraged by three U.S. Federal Reserve rate cuts and a strong domestic economy, 2019 was a strong year for the U.S. equity market. All sectors performed well, with the largest laggard being the Energy sector. Meanwhile, the Information Technology and Telecommunications Services sectors were the biggest contributors this year.

The S&P 500 Index reached several all-time highs during the year, the last of which was on December 27th, boosted by growing optimism over an initial U.S.-China trade deal.

Given this context, the Fund underperformed its benchmark. Stock selection in Industrials and Information Technology were the main detractors to performance over the year. Holding an overweight position in Health Care was also a negative detractor on performance.

From an individual stock perspective, Nielsen, CVS Corp and Walgreens were major detractors to performance.

Recent Developments

During the year, the portfolio manager sold positions in BB&T Corp, Noble Energy, Procter & Gamble Company, Walgreens, Fiserv Inc., Bristol-Myers Squibb Company, CVS Health Corp. and Davita Inc. He also initiated new positions in Bank OZK, Verizon Communications Inc., Axa and Amcor PLC.

Compared to the index, the Fund is underweight in the following sectors: Communication Services, Consumer Discretionary, Energy, Industrials and Materials.

In the longer term, expectations continue to be limited by the secular headwinds. Developed economies are heavily indebted, have underinvested in productive capacity and are facing demographic headwinds due to an aging population base. In sum, the long-term trend rate of economic growth will continue to be modest even without the added uncertainty from protracted trade wars and Brexit negotiations. Central bank intervention will continue to be needed in the absence of truly significant fiscal policy stimulus. The portfolio manager expects more uncertainty in the increasingly multi-polar geopolitical world, which would only be magnified by a potential second term for President Trump. His re-election would allow him to put his "America First" trade and foreign relations policies into overdrive.

On April 30, 2019, the Fund's independent review committee (the "IRC") was reduced to three members when André Godbout resigned as an IRC member. On May 22, 2019, the Fund's IRC was increased to five members when Norman Turnbull and Robert Martin were appointed as IRC members.

Related Party Transactions

National Bank of Canada ("the Bank") and its affiliated companies' roles and responsibilities related to the Fund are as follows:

Trustee, Custodian, and Registrar

Natcan Trust Company ("NTC"), a direct or indirect wholly-owned subsidiary of the Bank, is the Fund's trustee. In this capacity, it is the legal owner of the Fund's investments.

NTC acts as registrar for the Fund's securities and the names of securityholders. NTC also acts as the Fund's custodian. The fees for NTC's custodial services are based on the standard rates in effect at NTC.

Agent for securities lending transactions

NTC acts as the agent for securities lending transactions acts on behalf of the Fund in administering securities lending transactions entered into by the Fund. NTC is an affiliate of the Manager.

Fund Manager

The Fund is managed by National Bank Investments Inc. ("NBII"), which is a wholly-owned subsidiary of the Bank. Therefore, NBII provides or ensures the provision of all general management and administrative services required by the Fund's current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Manager pays the operating expenses of the Fund other than its "Fund costs" (defined below) (the "variable operating expenses"), in exchange for the Fund's payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

The administration fees are equal to a specified percentage of the net asset value of each series of the Fund, calculated and paid in the same manner as the Fund's management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, Fund Facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Fund shall also pay certain Fund costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Fund.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series' management fees, administration fees or Fund costs.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBII as consideration for its services.

Distribution and Dealer Compensation

NBII acts as principal distributor for the Fund. In this capacity, NBII buys, sells and swaps securities through Bank branches and the National Bank Investments Advisory Service in Canadian provinces and territories, and through external registered representatives. Fund securities are also offered by National Bank Financial Inc. (including its division National Bank Direct Brokerage), CABN Investments (a division of NBII) and other affiliated entities. Brokers may receive, depending on the distributed series, a monthly commission representing a percentage of the average daily value of the securities held by their clients.

Brokerage Fees

The Fund may pay broker's commissions at market rates to a corporation affiliated with NBII. The brokerage fees paid by the Fund for the period are as follows:

	Period ended December 31, 2019
Total brokerage fees	7,878.66
Brokerage fees paid to National Bank Financial	139.03

Holdings

As at December 31, 2019, National Bank Investments Inc. held 204.72 Fund securities for a value of \$3,193.62, which represented close to 0.0131% of the net asset value of the Fund at that date. Transactions between National Bank Investments Inc. and the Fund were carried out in the normal course of business and at the Fund's net asset value as at the transaction date.

Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

Administrative and Operating Services

The provision of certain services was delegated by the Fund Manager, NBII, to National Bank Trust Inc. ("NBT"), a wholly-owned indirect subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. A portion of the management fees paid by the Fund covers maximum annual trailer fees and sales commissions paid to brokers. The remainder of the management fees primarily covers investment management and general administration services. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees, is as follows:

Series	Management Fees	Distribution	Others [†]
Investor Series	2.00%	50.00%	50.00%
Advisor Series*			
Front-end load	2.00%	50.00%	50.00%
Back-end load - 1 to 6 years	2.00%	25.00%	75.00%
Back-end load - 7 years and more	2.00%	50.00%	50.00%
Low load - 1 to 3 years	2.00%	25.00%	75.00%
Low load - 4 years and more	2.00%	50.00%	50.00%
Series F	0.85%	—	100.00%
Series O	N/A**	—	100.00%

^(†) Includes all costs related to management, investment advisory services, general administration and profit.

^(*) Excluding sales commissions paid on the Advisor Series with the low sales charge option and deferred sales charge option, which are not paid for out of the management fees.

^(**) There are no management fees paid by the Fund with respect to the Series O. Instead, Series O securityholders pay a negotiated administration fee directly to National Bank Investments.

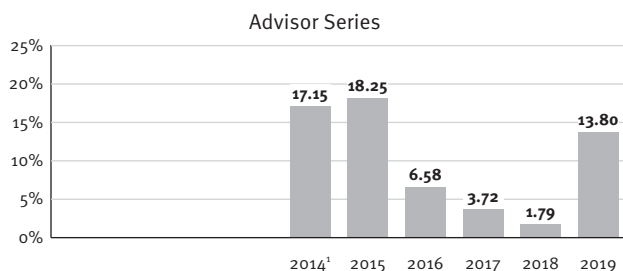

Past Performance

The performance of each series of the Fund is presented below and calculated as at December 31 of each year. It assumes that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of a Fund does not necessarily indicate how it will perform in the future.

Annual Returns

The bar charts indicate the performance for each the Fund's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, or by June 30, as applicable.

⁽¹⁾ Returns for the period from January 8, 2014 (commencement of operations) to December 31, 2014.

⁽²⁾ Returns for the period from October 30, 2015 (commencement of operations) to December 31, 2015.

Annual Compounded Performance

The following table shows the Fund's annual compound returns for each series in existence greater than one year and for each of the periods ended on December 31, 2019, compared with the following benchmark:

- S&P 500 Index (CAD)

NBI U.S. Dividend Fund

	1 year	3 years	5 years	10 years	Since inception
Investor Series¹	13.80%	6.31%	–	–	7.44%
Benchmark	25.07%	14.00%	–	–	13.87%
Advisor Series²	13.80%	6.31%	8.65%	–	10.06%
Benchmark	25.07%	14.00%	14.21%	–	19.02%
Series F²	15.27%	7.73%	10.10%	–	11.48%
Benchmark	25.07%	14.00%	14.21%	–	19.02%
Series O²	16.54%	8.79%	11.23%	–	12.69%
Benchmark	25.07%	14.00%	14.21%	–	19.02%

¹Commencement of operations: October 30, 2015

²Commencement of operations: January 8, 2014

A discussion of the Fund's relative performance in comparison to the index (or indices) can be found in the *Results of Operations* Section of this report.

Index Description

The **S&P 500 Index** is a float-adjusted market capitalization weighted index composed of 500 companies that measures the performance of the large-cap segment of the U.S. market.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the accounting periods shown.

⁽¹⁾ This information is derived from the Fund's Annual Audited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.

⁽²⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period. For all series created before 2016, the detailed calculation of the total Increase (Decrease) from Operations as at December 31, 2015 has been adjusted to reflect the proper allocation between the following items: Total revenue, Total expenses, Realized gain (losses) and/or Unrealized gain (losses). It is a non-material correction related to a programming error in the ratio calculation.

⁽³⁾ Distributions were paid in cash or reinvested in additional units of the Fund, or both.

⁽⁴⁾ The net assets are calculated in accordance with IFRS.

⁽⁵⁾ This information is provided as at the last day of the accounting period shown.

⁽⁶⁾ Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period.

⁽⁷⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106. Since calculating an average daily allocation of the trading expenses would take considerable effort, an average monthly allocation has been used instead for the accounting periods prior to 2016.

⁽⁸⁾ The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
