

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended December 31, 2022

Global Equity Fund

NBI *SmartData* International Equity Fund

Notes on forward-looking statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-888-270-3941 or 514-871-2082, by writing to us at National Bank Investments Advisory Service, 500, Place d'Armes, 12th floor, Montreal, Quebec, H2Y 2W3, by visiting our website at www.nbinvestments.ca, by visiting SEDAR's website at www.sedar.com, or by contacting your advisor. You may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

The NBI *SmartData* International Equity Fund's investment objective is to provide long-term capital growth. This Fund invests directly, or through investments in securities of other mutual funds, in a portfolio mainly composed of equities of foreign companies located outside North America and in American Depository Receipts (ADR) traded on recognized stock exchanges.

The portfolio sub-advisor analyzes equities using a quantitative selection process based on an analysis of various financial ratios recognized in the market. Following a comparison of the different ratios, the securities with the best overall ratings are selected. The final selection of securities, as well as their weight within the portfolio, is determined so as to obtain a portfolio diversified by market and geographic sectors.

Risks

The global investment risk of the Fund remains as described in the simplified prospectus or any amendments thereto and Fund Facts.

Results of Operations

For the twelve-month period ended December 31, 2022, the NBI *SmartData* International Equity Fund's Investor Series units returned -8.20% compared to -8.23% for the Fund's benchmark, the MSCI EAFE Index (CAD). Unlike the benchmark, the Fund's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund's series, which may vary mainly because of fees and expenses.

Certain series of the Fund, as applicable, may make distributions at a rate determined by the manager. This rate may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The manager does not believe that the return of capital distributions made by such series of the Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

The Fund's net asset value dropped by 28.40% over the period, from \$1.977 billion as at December 31, 2021 to \$1.415 billion as at December 31, 2022.

The decline stemmed mainly from withdrawals from the Fund by other NBI Funds and market fluctuations.

The MSCI EAFE Index was flat in December 2022 ending the year significantly down.

European equity markets faced a challenging year owing to inflation, rising bond yields and the war in Ukraine. Equities rose slightly midyear owing to strong corporate earnings, but Federal Reserve's multiple interest rate hikes and multi-decade high inflation kept investor sentiment dampened. However, investor sentiment plummeted again in December owing to an ensuing euro area recession and the European Central Bank joining the quantitative tightening wave.

Japanese equities had a challenged start to the year as a surge in COVID-19 cases led to a quasi-state of emergency in the country, combined with rising concerns around a Russia-Ukraine conflict. Towards the year end, Bank of Japan announced widening of the band for maintaining its 10-year bond yields—a step towards policy normalization in the post-COVID era.

Under these circumstances, the Fund outperformed its benchmark.

Among our investment themes, our signals within our Fundamental Mispricings pillar contributed most to relative returns followed by our suite of signals within our Sentiment Analysis, and Themes and Trends pillars. Conversely, our signals within our High-Quality Business Models pillar detracted the most from relative returns.

Among sectors, our holdings within the Industrials sector contributed the most to relative performance, with our underweight position within the Machinery industry contributing particularly strongly. Conversely, holdings within the Health Care sector detracted the most from excess returns, with the largest proportion of challenges arising from our overweight position within the Pharmaceuticals industry.

At an individual stock level, our underweight position in Sony Group Corp. was among one of the largest positive contributors to relative returns. Meanwhile, our underweight position in TotalEnergies SE was among one of the largest detractors from excess returns over the period.

At the country level, our overweight position in Japan was among one of the largest positive contributors to relative returns. Meanwhile, our overweight position in France was among one of the largest detractors from excess returns over the period.

Recent Developments

Please note our sector allocations are mainly driven by our bottom-up stock selection views.

The main overweight positions in the portfolio in comparison to the benchmark were Marubeni Corp., Sun Hung Kai Properties Ltd., E.ON SE, Dieteren Group, and Sanofi. The main underweight positions were TotalEnergies SE, AstraZeneca PLC, Nestle SA, Toyota Motor Corp., and Unilever PLC.

Looking ahead, we continue to believe that cheaper stocks should outpace more expensive ones and good momentum stocks should do better than poor momentum stocks. We also prefer names about which fundamental research analysts are becoming more positive and companies that are profitable, have sustainable earnings and use their capital to enhance shareholder value. As such, we anticipate remaining fully invested and expect that the value we may add over time will be due to stock selection, as opposed to size allocations.

On April 30, 2022, the Fund's independent review committee (the "IRC") was reduced to three members when Robert Martin resigned as IRC member. On May 1, 2022, the Fund's IRC was increased to four members when Line Deslandes was appointed as IRC member. However, on September 30, 2022, the Fund's IRC was reduced to three members when Line Deslandes resigned as IRC member.

On May 20, 2022, NBI discontinued the purchase offering of deferred sales charge and low sales charge purchase options for all new investments, including purchases made through systematic plans in all Canadian jurisdictions. Investors who purchased units under these sales charge options will continue to be subject to the redemption fee schedules under which they were purchased.

Related Party Transactions

National Bank of Canada ("the Bank") and its affiliated companies' roles and responsibilities related to the Fund are as follows:

Trustee, Custodian, and Registrar

Natcan Trust Company ("NTC"), a direct or indirect wholly-owned subsidiary of the Bank, is the Fund's trustee. In this capacity, it is the legal owner of the Fund's investments.

NTC acts as registrar for the Fund's securities and the names of securityholders. NTC also acts as the Fund's custodian. The fees for NTC's custodial services are based on the standard rates in effect at NTC.

Agent for securities lending transactions

NTC acts as the agent for securities lending transactions acts on behalf of the Fund in administering securities lending transactions entered into by the Fund. NTC is an affiliate of the Manager.

Fund Manager

The Fund is managed by National Bank Investments Inc. (“NBII”), which is a wholly-owned subsidiary of the Bank. Therefore, NBII provides or ensures the provision of all general management and administrative services required by the Fund’s current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Manager pays the operating expenses of the Fund other than its “Fund costs” (defined below) (the “variable operating expenses”), in exchange for the Fund’s payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

The administration fees are equal to a specified percentage of the net asset value of each series of the Fund, calculated and paid in the same manner as the Fund’s management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, Fund Facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Fund shall also pay certain Fund costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Fund.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series’ management fees, administration fees or Fund costs.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBII as consideration for its services.

Distribution and Dealer Compensation

NBII acts as principal distributor for the Fund. In this capacity, NBII buys, sells and swaps securities through Bank branches and the National Bank Investments Advisory Service in Canadian provinces and territories, and through external registered representatives. Fund securities are also offered by National Bank Financial Inc. (including its division National Bank Direct Brokerage), CABN Investments (a division of NBII) and other affiliated entities. Brokers may receive, depending on the distributed series, a monthly commission representing a percentage of the average daily value of the securities held by their clients.

Brokerage Fees

The Fund may pay broker’s commissions at market rates to a corporation affiliated with NBII. The brokerage fees paid by the Fund for the period are as follows:

	Period ended December 31, 2022
Total brokerage fees	2,430,514.22
Brokerage fees paid to National Bank Financial	2,430,514.22

Holdings

As at December 31, 2022, National Bank Investments Inc. held 17,033.68 Fund securities for a value of \$188,634.82, which represented close to 0.0116% of the net asset value of the Fund at that date. Transactions between National Bank Investments Inc. and the Fund were carried out in the normal course of business and at the Fund’s net asset value as at the transaction date.

As at December 31, 2022, National Bank Trust Inc. held 1.28 Fund securities for a value of \$13.02, which represented close to 0.0000% of the net asset value of the Fund at that date. Transactions between National Bank Trust Inc. and the Fund were carried out in the normal course of business and at the Fund’s net asset value as at the transaction date.

Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

Administrative and Operating Services

The provision of certain services was delegated by the Fund Manager, NBII, to National Bank Trust Inc. (“NBT”), a wholly-owned indirect subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. The fees are calculated based on a percentage of the Fund’s daily net asset value before applicable taxes and are paid on a monthly basis. Under the *Distribution* heading, expenses include the broker’s compensation consisting of the maximum annual trailer fees and sales commissions paid to brokers. Under the *Other* heading, the fees relate mainly to investment management, investment advisory services, general administration and profit. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

Series	Management Fees	Distribution	Others [†]
Investor Series	1.70%	58.82%	41.18%
Advisor Series and Series T5*			
Front-end load**	1.70%	58.82%	41.18%
Back-end load - 1 to 6 years	1.70%	29.41%	70.59%
Low load - 1 to 3 years	1.70%	29.41%	70.59%
Low load - 4 years and more	1.70%	58.82%	41.18%
Series H*			
Front-end load	1.70%	58.82%	41.18%
Low load - 1 to 3 years	1.70%	29.41%	70.59%
Low load - 4 years and more	1.70%	58.82%	41.18%
Series F, Series FH and Series F5	0.70%	—	100.00%
Series N and Series NR***	0.30%	—	100.00%
Series O	N/A****	—	100.00%

^(†) Includes all costs related to management, investment advisory services, general administration and profit.

^(*) Excluding sales commissions paid on the Advisor Series, Series H and Series T5 with low sales charges option and deferred sales charge option, which are not paid for out of the management fees.

^(**) Rate applicable for all investments, including Advisor Series existing before May 14, 2015, systematic investment programs, reinvested distributions and switches.

^(***) For Series N and NR, offered only to investors using the NBI Private Wealth Management service (“PWM”), management fees only cover management of fund investments, i.e. the fees related to management of fund portfolios constituting the PWM profiles. General administration services, trailer fees and sale commissions paid to brokers are covered by the PWM’s service fees, which are paid directly by investors.

^(****) There are no management fees paid by the Fund with respect to the Series O. Instead, Series O securityholders pay a negotiated administration fee directly to National Bank Investments.

Past Performance

The performance of each series of the Fund is presented below and calculated as at December 31 of each year. It assumes that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of a Fund does not necessarily indicate how it will perform in the future.

Annual Returns

The bar charts indicate the performance for each the Fund's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, in the case of the Annual management report of fund performance, or by June 30, in the case of the Interim management report of fund performance.

¹Returns for the period from May 21, 2014 (commencement of operations) to December 31, 2014.

²Returns for the period from May 20, 2014 (date on which the securities were issued or outstanding) to December 31, 2014.

³Returns for the period from October 30, 2015 (commencement of operations) to December 31, 2015.

⁴Returns for the period from May 19, 2017 (commencement of operations) to December 31, 2017.

⁵Returns for the period from May 5, 2021 (commencement of operations) to December 31, 2021.

Annual Compounded Performance

The following table shows the Fund's annual compound returns for each series in existence greater than one year and for each of the periods ended on December 31, 2022, compared with the following benchmark:

- MSCI EAFE Index (CAD)

- ⁽¹⁾ This information is derived from the Fund's Annual Audited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.
- ⁽²⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period.
- ⁽³⁾ Distributions were paid in cash or reinvested in additional units of the Fund, or both.
- ⁽⁴⁾ The net assets are calculated in accordance with IFRS.
- ⁽⁵⁾ This information is provided as at the last day of the accounting period shown.
- ⁽⁶⁾ Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period.
- ⁽⁷⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.
- ⁽⁸⁾ The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
