

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended December 31, 2022

Specialized Fund
NBI Precious Metals Fund

Notes on forward-looking statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-888-270-3941 or 514-871-2082, by writing to us at National Bank Investments Advisory Service, 500, Place d'Armes, 12th floor, Montreal, Quebec, H2Y 2W3, by visiting our website at www.nbinvestments.ca, by visiting SEDAR's website at www.sedar.com, or by contacting your advisor. You may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

The NBI Precious Metals Fund aims to achieve long-term growth through investment primarily in securities of companies or securities whose value is dependent upon the value of gold, silver, platinum and palladium (“Precious Metals”) or strategic metals (such as rhodium, titanium, chromium, cobalt and iridium) or strategic minerals or diamonds.

The portfolio manager analyzes Canadian and foreign companies engaged in the exploration for, or the mining, production or distribution of Precious Metals. The portfolio manager may also invest directly in Precious Metals by buying bullion, coins or certificates and other evidences of purchase. It is expected that investments in foreign securities will not exceed approximately 30% of the Fund’s net assets.

Risks

The global investment risk of the Fund remains as described in the simplified prospectus or any amendments thereto and Fund Facts.

Results of Operations

For the twelve-month period ended December 31, 2022, the NBI Precious Metals Fund’s Investor Series units returned -7.03% compared to -6.73% for the Fund’s blended benchmark. The broad-based index, the S&P/TSX Gold Index (CAD), returned -4.94%. Unlike the indices, the Fund’s performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund’s series, which may vary mainly because of fees and expenses.

The Fund’s net asset value dropped by 11.22% over the period, from \$27.17 million as at December 31, 2021 to \$24.12 million as at December 31, 2022.

The decline stemmed mainly from net redemptions by unitholders of the Fund and market fluctuations.

In 2022, gold was essentially flat, a reasonable outcome given that many asset classes had negative returns. Some analysts believe the price of gold should have risen higher given geopolitical turbulence, central bank rate hikes, and related global inflation. While it’s difficult to predict gold prices, current levels could persist into 2023 as rate hikes subside, the U.S. dollar softens, and higher-than-normal central bank demand for gold persists.

Under these circumstances, the Fund underperformed its benchmark.

Significant contributors to performance were Lundin Gold Inc., Pan American Silver Corp., and K92 Mining Inc.

The only notable detractor from performance was Wesdome Gold Mines Ltd. Wesdome reported higher-than-expected costs which negatively impacted quarterly earnings.

Recent Developments

Since the transition of management responsibility assumed in Q4, the portfolio was materially adjusted to reflect Foyston, Gordon & Payne’s outlook and portfolio construction approach.

The Fund aims to generate long-term value from profitable precious metals companies that measure their performance on a per-share basis. We look for companies with long-life assets, low costs of production, and good operational execution, including safety. We like companies that grow intrinsically over time without excessively diluting ownership.

Our precious metals investment philosophy is generally to focus on companies that are in actual production versus more junior, speculative exploration and early-stage development companies. We also prefer companies with multiple operations in safer and more stable political jurisdictions.

We also like the diversification and protection offered by the royalty and streaming companies that are inherently less risky than a pure-play miner. At this point, though, many precious metals companies, including royalty and streaming companies, are quite expensive relative to other commodity companies, potentially limiting their upside potential unless precious metals prices rise materially beyond analyst estimates.

Our portfolio currently consists of core positions in large-cap, high-quality producers and royalty companies, in addition to a collection of mid-cap producers that have unique attributes and can benefit from an improving commodity price environment. We would expect that 2023 could extend the continuation of mergers and acquisitions exhibited in 2022 as all producers attempt to gain greater scale to combat cost inflation and better manage supply chain issues.

On April 30, 2022, the Fund’s independent review committee (the “IRC”) was reduced to three members when Robert Martin resigned as IRC member. On May 1, 2022, the Fund’s IRC was increased to four members when Line Deslandes was appointed as IRC member. However, on September 30, 2022, the Fund’s IRC was reduced to three members when Line Deslandes resigned as IRC member.

On May 20, 2022, NBI discontinued the purchase offering of deferred sales charge and low sales charge purchase options for all new investments, including purchases made through systematic plans in all Canadian jurisdictions. Investors who purchased units under these sales charge options will continue to be subject to the redemption fee schedules under which they were purchased.

On June 17, 2022, National Bank Trust Inc. replaced Fiera Capital Corporation as portfolio manager of the fund, the latter which became the portfolio sub-advisor.

On or about September 29, 2022, Foyston, Gordon & Payne Inc. replaced Fiera Capital Corporation as the Fund’s portfolio sub-advisor. This change is in line with the governance process of NBI’s open architecture structure. The investment objective of these funds remains unchanged.

On or about October 1, 2022, the management fees and maximum annual trailing commissions for the Investor Series and Advisor Series of the Fund were reduced. The management fees were reduced to 1.75% and its maximum annual trailing commissions were reduced to 1.00%.

Related Party Transactions

National Bank of Canada (“the Bank”) and its affiliated companies’ roles and responsibilities related to the Fund are as follows:

Trustee, Custodian, and Registrar

Natcan Trust Company (“NTC”), a direct or indirect wholly-owned subsidiary of the Bank, is the Fund’s trustee. In this capacity, it is the legal owner of the Fund’s investments.

NTC acts as registrar for the Fund’s securities and the names of securityholders. NTC also acts as the Fund’s custodian. The fees for NTC’s custodial services are based on the standard rates in effect at NTC.

Agent for securities lending transactions

NTC acts as the agent for securities lending transactions acts on behalf of the Fund in administering securities lending transactions entered into by the Fund. NTC is an affiliate of the Manager.

Fund Manager

The Fund is managed by National Bank Investments Inc. (“NBII”), which is a wholly-owned subsidiary of the Bank. Therefore, NBII provides or ensures the provision of all general management and administrative services required by the Fund’s current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Manager pays the operating expenses of the Fund other than its “Fund costs” (defined below) (the “variable operating expenses”), in exchange for the Fund’s payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

The administration fees are equal to a specified percentage of the net asset value of each series of the Fund, calculated and paid in the same manner as the Fund’s management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, Fund Facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Fund shall also pay certain Fund costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Fund.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series’ management fees, administration fees or Fund costs.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBII as consideration for its services.

Portfolio Manager

The Manager has appointed National Bank Trust Inc. (“NBT”), an indirect wholly-owned subsidiary of the Bank, as the portfolio manager for the Fund. A flat fee is payable annually to NBT for its management services.

Distribution and Dealer Compensation

NBII acts as principal distributor for the Fund. In this capacity, NBII buys, sells and swaps securities through Bank branches and the National Bank Investments Advisory Service in Canadian provinces and territories, and through external registered representatives. Fund securities are also offered by National Bank Financial Inc. (including its division National Bank Direct Brokerage), CABN Investments (a division of NBII) and other affiliated entities. Brokers may receive, depending on the distributed series, a monthly commission representing a percentage of the average daily value of the securities held by their clients.

Brokerage Fees

The Fund may pay broker’s commissions at market rates to a corporation affiliated with NBII. The brokerage fees paid by the Fund for the period are as follows:

	Period ended December 31, 2022
Total brokerage fees	13,315.27
Brokerage fees paid to National Bank Financial	-

Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

Administrative and Operating Services

The provision of certain services was delegated by the Fund Manager, NBII, to National Bank Trust Inc. (“NBT”), a wholly-owned indirect subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. The fees are calculated based on a percentage of the Fund’s daily net asset value before applicable taxes and are paid on a monthly basis. Under the *Distribution* heading, expenses include the broker’s compensation consisting of the maximum annual trailer fees and sales commissions paid to brokers. Under the *Other* heading, the fees relate mainly to investment management, investment advisory services, general administration and profit. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

Series	Management Fees	Distribution	Others [†]
Investor Series	1.75%	57.14%	42.86%
Advisor Series*			
Front-end load**	1.75%	57.14%	42.86%
Back-end load - 1 to 6 years	1.75%	28.57%	71.43%
Low load - 1 to 3 years	1.75%	28.57%	71.43%
Low load - 4 years and more	1.75%	57.14%	42.86%
Series F	0.75%	—	100.00%

^(†) Includes all costs related to management, investment advisory services, general administration and profit.

^(*) Excluding sales commissions paid on the Advisor Series with the low sales charge option and deferred sales charge option, which are not paid for out of the management fees.

^(**) Rate applicable for all investments, including Advisor Series existing before May 14, 2015, systematic investment programs, reinvested distributions and switches.

Past Performance

The performance of each series of the Fund is presented below and calculated as at December 31 of each year. It assumes that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of a Fund does not necessarily indicate how it will perform in the future.

Annual Returns

The bar charts indicate the performance for each the Fund's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, in the case of the Annual management report of fund performance, or by June 30, in the case of the Interim management report of fund performance.

¹Returns for the period from June 22, 2021 (commencement of operations) to December 31, 2021.

Annual Compounded Performance

The following table shows the Fund's annual compound returns for each series in existence greater than one year and for each of the periods ended on December 31, 2022, compared with the following benchmarks:

The blended benchmark (the "Benchmark") is composed of:

- S&P/TSX Gold Index (CAD) (85%)
- S&P/TSX Composite Silver Total Return Index (CAD) (15%)

The broad-based index is the S&P/TSX Gold Index (CAD).

¹Commencement of operations: July 27, 1994

²Commencement of operations: June 12, 2009

³Commencement of operations: June 22, 2021

A discussion of the Fund's relative performance in comparison to the index (or indices) can be found in the *Results of Operations* Section of this report.

Index Descriptions

The **S&P/TSX Gold Index** measures the performance of securities in the gold sector in Canada. The index is based on the securities' market capitalization.

The **S&P/TSX Composite Silver Total Return Index** measures the performance of securities in this specific sub industry in Canada. The Index is based in the securities' market capitalization.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the accounting periods shown.

Investor / Advisor* Series

⁽¹⁾ The Advisor Series was created on June 12, 2009.

- ⁽¹⁾ This information is derived from the Fund's Annual Audited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.
- ⁽²⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period.
- ⁽³⁾ Distributions were paid in cash or reinvested in additional units of the Fund, or both.
- ⁽⁴⁾ The net assets are calculated in accordance with IFRS.
- ⁽⁵⁾ This information is provided as at the last day of the accounting period shown.
- ⁽⁶⁾ Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period.
- ⁽⁷⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.
- ⁽⁸⁾ The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
