

# ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended December 31, 2022

Global Equity Fund

## **NBI Global Diversified Equity Fund**

### **Notes on forward-looking statements**

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

## Management Discussion of Fund Performance

### Investment Objective and Strategies

The NBI Global Diversified Equity Fund's investment objective is to ensure long-term capital growth. The Fund invests directly, or through investments in securities of other mutual funds, in a portfolio comprised mainly of equity securities of foreign companies located outside of Canada.

The portfolio sub-advisor analyzes each company's potential for success, in light of its current financial condition, its industry positioning, and economic and market conditions. The portfolio sub-advisor considers factors such as growth potential, earnings estimates and quality of management, and normally diversifies the Fund's investments across different countries and regions.

### Risks

The global investment risk of the Fund remains as described in the simplified prospectus or any amendments thereto and Fund Facts.

### Results of Operations

For the twelve-month period ended December 31, 2022, the NBI Global Diversified Equity Fund's Investor Series units returned -9.32% compared to -12.19% for the Fund's benchmark, the MSCI World Index (CAD). Unlike the benchmark, the Fund's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund's series, which may vary mainly because of fees and expenses.

The Fund's net asset value dropped by 23.65% over the period, from \$56.92 million as at December 31, 2021 to \$43.46 million as at December 31, 2022.

The decline stemmed mainly from market fluctuations and net redemptions by unitholders of the Fund.

Russian invasion of Ukraine, record inflation, potential recession on the horizon; it's fair to say that 2022 has proven to be challenging on many fronts. For investors, this context has resulted in declines for stocks and bonds in the first half of the year, followed by six months of ups and downs with no clear direction.

In sum, global equities (-12.0% for the MSCI World CAD) have performed similarly to traditional Canadian bonds (-11.7% for the FTSE Canada Universe) in 2022, although for fixed income, this represents their worst annual performance in history. In terms of leadership, Canadian equities (-5.8% for the S&P/TSX) did significantly better than their peers, supported in part by generally high commodity prices. On the other hand, the environment was more difficult in emerging markets (-19.7% for the MSCI EM Index in USD), held back by slowing global growth, containment in China, a strong U.S. dollar and increasingly restrictive monetary policies.

Under these circumstances, the Fund outperformed its benchmark.

Among the largest contributors to performance was the NBI SmartData International Equity Fund, which returned more than its benchmark, the MSCI EAFE. This outperformance came from stock selection, primarily in the industrials, utilities and technology sectors, which enabled the fund to beat the market. The NBI SmartData U.S. Equity Fund performed in line with its benchmark, the S&P500. While an underweight position in the energy and utilities sectors detracted from value, stock selection in the information technology and health care sectors was successful.

### Recent Developments

No significant changes were carried out during the year.

The fund is slightly overweight international markets at the expense of the North American market.

2023 should see a sustained slowdown in inflationary pressures, prompting central banks to pause their interest rate hike cycle by the second quarter. Meanwhile, growth figures are likely to begin to slow further as the lagged effects of the large rate hikes work their way through the real economy. With this environment comes significant risks of recession, which in turn could ultimately force central banks to set the stage for potential interest rate cuts later in the year.

This scenario comes with a level of uncertainty that remains unusually high. For instance, a much faster-than-expected slowdown in inflation would represent the most optimistic scenario, provided that it prompts central banks to stop—and even reverse—their rate hike cycle earlier than expected, thereby reducing the likelihood of a recession. That said, an important risk factor remains excessive monetary tightening by a Federal Reserve that cannot afford to underestimate once again the persistence of inflationary pressures. One thing is certain: an important success factor in 2023 will be the ability to remain nimble in a constantly changing environment.

On April 30, 2022, the Fund's independent review committee (the "IRC") was reduced to three members when Robert Martin resigned as IRC member. On May 1, 2022, the Fund's IRC was increased to four members when Line Deslandes was appointed as IRC member. However, on September 30, 2022, the Fund's IRC was reduced to three members when Line Deslandes resigned as IRC member.

On May 20, 2022, NBI discontinued the purchase offering of deferred sales charge and low sales charge purchase options for all new investments, including purchases made through systematic plans in all Canadian jurisdictions. Investors who purchased units under these sales charge options will continue to be subject to the redemption fee schedules under which they were purchased.

### Related Party Transactions

National Bank of Canada ("the Bank") and its affiliated companies' roles and responsibilities related to the Fund are as follows:

#### Trustee, Custodian, and Registrar

Natcan Trust Company ("NTC"), a direct or indirect wholly-owned subsidiary of the Bank, is the Fund's trustee. In this capacity, it is the legal owner of the Fund's investments.

NTC acts as registrar for the Fund's securities and the names of securityholders. NTC also acts as the Fund's custodian. The fees for NTC's custodial services are based on the standard rates in effect at NTC.

#### Agent for securities lending transactions

NTC acts as the agent for securities lending transactions acts on behalf of the Fund in administering securities lending transactions entered into by the Fund. NTC is an affiliate of the Manager.

#### Fund Manager

The Fund is managed by National Bank Investments Inc. ("NBII"), which is a wholly-owned subsidiary of the Bank. Therefore, NBII provides or ensures the provision of all general management and administrative services required by the Fund's current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Manager pays the operating expenses of the Fund other than its "Fund costs" (defined below) (the "variable operating expenses"), in exchange for the Fund's payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

The administration fees are equal to a specified percentage of the net asset value of each series of the Fund, calculated and paid in the same manner as the Fund's management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, Fund Facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Fund shall also pay certain Fund costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Fund.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series' management fees, administration fees or Fund costs.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBII as consideration for its services.

#### Portfolio Manager

The Manager has appointed National Bank Trust Inc. ("NBT"), an indirect wholly-owned subsidiary of the Bank, as the portfolio manager for the Fund. A flat fee is payable annually to NBT for its management services.

#### Distribution and Dealer Compensation

NBII acts as principal distributor for the Fund. In this capacity, NBII buys, sells and swaps securities through Bank branches and the National Bank Investments Advisory Service in Canadian provinces and territories, and through external registered representatives. Fund securities are also offered by National Bank Financial Inc. (including its division National Bank Direct Brokerage), CABN Investments (a division of NBII) and other affiliated entities. Brokers may receive, depending on the distributed series, a monthly commission representing a percentage of the average daily value of the securities held by their clients.

#### Holdings

As at December 31, 2022, National Bank Investments Inc. held 166.20 Fund securities for a value of \$1,603.84, which represented close to 0.0040% of the net asset value of the Fund at that date. Transactions between National Bank Investments Inc. and the Fund were carried out in the normal course of business and at the Fund's net asset value as at the transaction date.

#### Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

#### Administrative and Operating Services

The provision of certain services was delegated by the Fund Manager, NBII, to National Bank Trust Inc. ("NBT"), a wholly-owned indirect subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

## Management Fees

The Fund pays annual management fees to the Fund manager for its management services. The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. Under the *Distribution* heading, expenses include the broker's compensation consisting of the maximum annual trailer fees and sales commissions paid to brokers. Under the *Other* heading, the fees relate mainly to investment management, investment advisory services, general administration and profit. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

Series	Management Fees	Distribution	Others <sup>†</sup>
Investor Series	2.00%	50.00%	50.00%
Advisor Series*			
Front-end load**	2.00%	50.00%	50.00%
Back-end load - 1 to 6 years	2.00%	25.00%	75.00%
Low load - 1 to 3 years	2.00%	25.00%	75.00%
Low load - 4 years and more	2.00%	50.00%	50.00%
Series F	1.05%	—	100.00%
Series O	N/A***	—	100.00%

<sup>(†)</sup> Includes all costs related to management, investment advisory services, general administration and profit.

<sup>(\*)</sup> Excluding sales commissions paid on the Advisor Series with the low sales charge option and deferred sales charge option, which are not paid for out of the management fees.

<sup>(\*\*)</sup> Rate applicable for all investments, including Advisor Series existing before May 14, 2015, systematic investment programs, reinvested distributions and switches.

<sup>(\*\*\*)</sup> There are no management fees paid by the Fund with respect to the Series O. Instead, Series O securityholders pay a negotiated administration fee directly to National Bank Investments.

## Past Performance

The performance of each series of the Fund is presented below and calculated as at December 31 of each year. It assumes that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of a Fund does not necessarily indicate how it will perform in the future.

## Annual Returns

The bar charts indicate the performance for each the Fund's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, in the case of the Annual management report of fund performance, or by June 30, in the case of the Interim management report of fund performance.

<sup>(1)</sup> Returns for the period from May 19, 2017 (commencement of operations) to December 31, 2017.

<sup>(2)</sup> Returns for the period from June 22, 2021 (commencement of operations) to December 31, 2021.

## Annual Compounded Performance

The following table shows the Fund's annual compound returns for each series in existence greater than one year and for each of the periods ended on December 31, 2022, compared with the following benchmark:

<sup>(1)</sup> This information is derived from the Fund's Annual Audited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.

<sup>(2)</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period.

<sup>(3)</sup> Distributions were paid in cash or reinvested in additional units of the Fund, or both.

<sup>(4)</sup> The net assets are calculated in accordance with IFRS.

<sup>(5)</sup> This information is provided as at the last day of the accounting period shown.

<sup>(6)</sup> Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period.

<sup>(7)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.

<sup>(8)</sup> The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
