Short-Term and Income Fund
NBI Presumed Sound Investments Fund

Notes on forward-looking statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

Management Discussion of Fund Performance

Investment Objective and Strategies

The NBI Presumed Sound Investments Fund's investment objective is to provide current income while focusing on capital preservation and purchasing power, yet remaining an investment that is presumed sound within the meaning of the *Civil Code of Québec*. The Fund invests directly, or through investments in securities of other mutual funds (that may include exchange-traded funds ("ETFs")), in a portfolio composed mainly of Canadian and foreign equity and fixed-income securities.

The portfolio manager may choose to invest up to 100% of the net assets of the Fund in the securities of mutual funds managed by the manager or third parties, including ETFs. When selecting an Underlying Fund in which to invest, the portfolio manager will ensure that the investments' status is presumed sound within the meaning of the *Civil Code of Québec*. The portfolio manager will consider the degree of exposure to the asset class that the Underlying Fund will provide to the Fund, the performance of the Underlying Fund, and the expenses (if any) payable by the Fund which may be associated with the investment. It is expected that investments in foreign securities will not exceed approximately 30% of the Fund's assets.

Risks

The global investment risk of the Fund remains as described in the simplified prospectus or any amendments thereto and Fund Facts.

Results of Operations

For the twelve-month period ended December 31, 2022, the NBI Presumed Sound Investments Fund's Investor Series units returned -9.18% compared to -9.16% for the Fund's blended benchmark. The broad-based indices, the Morningstar® Canada Liquid Bond Index (CAD) and the Morningstar® Canada Large-Mid Index (CAD), returned -10.97% and -5.43% respectively. Unlike the indices, the Fund's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund's series, which may vary mainly because of fees and expenses.

The Fund's net asset value dropped by 57.61% over the period, from \$195.70 million as at December 31, 2021 to \$82.95 million as at December 31, 2022.

The decline stemmed mainly from redemptions by unitholders of the Fund and market fluctuations.

With the Russian invasion of Ukraine, record inflation, and potential recession on the horizon; it's fair to say that 2022 has proven to be challenging on many fronts. For investors, this context has resulted in declines for stocks and bonds in the first half of the year, followed by six months of ups and downs with no clear direction.

In this context of uncertainty and rising rates, global equities (-12.0% for the MSCI World C\$) have performed similarly to traditional Canadian bonds (-11.7% for the FTSE Canada Universe) in 2022, although for fixed income, this represents their worst annual performance in history. In terms of leadership, Canadian equities (-5.8% for the S&P/TSX) did significantly better than their peers, supported in part by generally high commodity prices. On the other hand, the environment was more difficult in emerging markets (-19.7% for the MSCI EM Index in US\$), held back by slowing global growth, containment in China, strong U.S. dollar, and increasingly restrictive monetary policies.

Within fixed income, segments with longer duration suffered the most (-21.5% for the FTSE Canada Long Index), a direct consequence of the substantial rate hikes delivered by most central banks.

For their part, Canadian preferred shares had a tough volatile year, an environment not seen since the first quarter of 2020. Rising rates and redemptions of preferred shares were not enough to compensate for the deterioration of the credit environment, particularly for hybrids and Limited Capital Notes (LRCN).

Within commodities, despite a wild rise following the announcement of the Russian invasion of Ukraine, the price of a barrel of oil ultimately closed in 2022 only slightly higher (+6.7% for WTI), slowed by increasingly weak economic growth prospects. For their part, gold prices (-0.6% in US\$) also ended close to where they started in 2022 despite wild fluctuations.

Finally, like most currencies, the Canadian dollar depreciated sharply against the U.S. dollar (+7.2%) amid heightened uncertainty.

In this context, the Fund underperformed its combined benchmark for the period. Among the largest contributors to performance was the NBI Liquid Alternatives ETF, which returned a positive return over the period. The NBI Canadian High Conviction Equity Private Portfolio also added value during the year, outperforming its benchmark, the S&P/TSX. In contrast, the NBI Preferred Equity Fund detracted value during the year, underperforming its benchmark the S&P/TSX Preferred Equity Index.

Recent Developments

The fund is currently underweighting the NBI Corporate Bond Fund and the NBI Global Real Assets Income ETF and overweight the NBI Preferred Equity Fund.

2023 should see a sustained slowdown in inflationary pressures, prompting central banks to pause their interest rate hike cycle by the second quarter. Meanwhile, growth figures are likely to begin to slow further as the lagged effects of the large rate hikes work their way through the real economy. With this environment comes significant risks of recession, which in turn could ultimately force central banks to set the stage for potential interest rate cuts later in the year.

With earnings under pressure, the coming year should therefore see a spread created in favour of fixed-income securities over equities, as suggested by the manager's quantitative model. For the time being, the manager still favours a slightly shorter duration considering the risk that the Fed's continued combative rhetoric will lead long rates to revisit their recent highs, but an opportunity to increase duration should present itself during the year. Within equities, the environment looks more challenging for emerging markets than in North America, while the manager's outlook favours more defensive strategies.

This scenario comes with a level of uncertainty that remains unusually high. For instance, a much faster-than-expected slowdown in inflation would represent the most optimistic scenario, if it prompts central banks to stop – and even reverse – their rate hike cycle earlier than expected, thereby reducing the likelihood of a recession. That said, an important risk factor remains excessive monetary tightening by a Federal Reserve that cannot afford to underestimate once again the persistence of inflationary pressures. One thing is certain: an important success factor in 2023 will be the ability to remain nimble in a constantly changing environment.

On April 30, 2022, the Fund's independent review committee (the "IRC") was reduced to three members when Robert Martin resigned as IRC member. On May 1, 2022, the Fund's IRC was increased to four members when Line Deslandes was appointed as IRC member. However, on September 30, 2022, the Fund's IRC was reduced to three members when Line Deslandes resigned as IRC member.

On May 20, 2022, NBI discontinued the purchase offering of deferred sales charge and low sales charge purchase options for all new investments, including purchases made through systematic plans in all Canadian jurisdictions. Investors who purchased units under these sales charge options will continue to be subject to the redemption fee schedules under which they were purchased.

On or about October 1, 2022, the management fees and maximum annual trailing commissions for the Investor Series and Advisor Series of the Fund were reduced. The management fees were reduced to 1.25% and its maximum annual trailing commissions were reduced to 0.50%.

Related Party Transactions

National Bank of Canada (“the Bank”) and its affiliated companies’ roles and responsibilities related to the Fund are as follows:

Trustee

National Bank Trust Inc. (“NBT”), a wholly-owned indirect subsidiary of the Bank, is the Fund’s trustee. In this capacity, it is the legal owner of the Fund’s investments.

Custodian and Registrar

Natcan Trust Company (“NTC”) acts as registrar for the Fund’s securities and the names of securityholders. NTC also acts as the Fund’s custodian. The fees for NTC’s custodial services are based on the standard rates in effect at NTC.

Agent for securities lending transactions

NTC acts as the agent for securities lending transactions acts on behalf of the Fund in administering securities lending transactions entered into by the Fund. NTC is an affiliate of the Manager.

Fund Manager

The Fund is managed by National Bank Investments Inc. (“NBII”), which is a wholly-owned subsidiary of the Bank. Therefore, NBII provides or ensures the provision of all general management and administrative services required by the Fund’s current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Manager pays the operating expenses of the Fund other than its “Fund costs” (defined below) (the “variable operating expenses”), in exchange for the Fund’s payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

The administration fees are equal to a specified percentage of the net asset value of each series of the Fund, calculated and paid in the same manner as the Fund’s management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, Fund Facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Fund shall also pay certain Fund costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Fund.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series’ management fees, administration fees or Fund costs.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBII as consideration for its services.

Portfolio Manager

The Manager has appointed National Bank Trust Inc. (“NBT”), an indirect wholly-owned subsidiary of the Bank, as the portfolio manager for the Fund. A flat fee is payable annually to NBT for its management services.

Distribution and Dealer Compensation

NBII acts as principal distributor for the Fund. In this capacity, NBII buys, sells and swaps securities through Bank branches and the National Bank Investments Advisory Service in Canadian provinces and territories, and through external registered representatives. Fund securities are also offered by National Bank Financial Inc. (including its division National Bank Direct Brokerage), CABN Investments (a division of NBII) and other affiliated entities. Brokers may receive, depending on the distributed series, a monthly commission representing a percentage of the average daily value of the securities held by their clients.

Brokerage Fees

The Fund may pay broker’s commissions at market rates to a corporation affiliated with NBII. The brokerage fees paid by the Fund for the period are as follows:

	Period ended December 31, 2022
Total brokerage fees	6,384.01
Brokerage fees paid to National Bank Financial	6,384.01

Holdings

As at December 31, 2022, National Bank Investments Inc. held 117.34 Fund securities for a value of \$1,064.30, which represented close to 0.0014% of the net asset value of the Fund at that date. Transactions between National Bank Investments Inc. and the Fund were carried out in the normal course of business and at the Fund’s net asset value as at the transaction date.

As at December 31, 2022, National Bank Trust Inc. held 1.18 Fund securities for a value of \$12.75, which represented close to 0.0000% of the net asset value of the Fund at that date. Transactions between National Bank Trust Inc. and the Fund were carried out in the normal course of business and at the Fund’s net asset value as at the transaction date.

Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

Administrative and Operating Services

The provision of certain services was delegated by the Fund Manager, NBII, to National Bank Trust Inc. (“NBT”), a wholly-owned indirect subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. As the Fund invests in underlying funds, the fees and expenses payable in connection with the management of the underlying funds are in addition to those payable by the Fund. However, the Fund manager makes sure that the Fund does not pay any management (or operating) fees that, to a reasonable person, would duplicate a fee payable by the underlying fund for the same service.

The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. Under the *Distribution* heading, expenses include the broker's compensation consisting of the maximum annual trailer fees and sales commissions paid to brokers. Under the *Other* heading, the fees relate mainly to investment management, investment advisory services, general administration and profit. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

Series	Management Fees	Distribution	Others [†]
Investor Series	1.25%	40.00%	60.00%
Advisor Series*			
Front-end load**	1.25%	40.00%	60.00%

Series F	0.75%	—	100.00%
Series O	N/A***	—	100.00%

^(†) Includes all costs related to management, investment advisory services, general administration and profit.

^(*) Excluding sales commissions paid on the Advisor Series with the low sales charge option and deferred sales charge option, which are not paid for out of the management fees.

^(**) Rate applicable for all investments, including Advisor Series existing before May 14, 2015, systematic investment programs, reinvested distributions and switches.

^(***) There are no management fees paid by the Fund with respect to the Series O. Instead, Series O securityholders pay a negotiated administration fee directly to National Bank Investments.

Past Performance

The performance of each series of the Fund is presented below and calculated as at December 31 of each year. It assumes that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of a Fund does not necessarily indicate how it will perform in the future.

Annual Returns

The bar charts indicate the performance for each the Fund's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, in the case of the Annual management report of fund performance, or by June 30, in the case of the Interim management report of fund performance.

⁽¹⁾ Returns for the period from May 21, 2019 (commencement of operations) to December 31, 2019.

Annual Compounded Performance

The following table shows the Fund's annual compound returns for each series in existence greater than one year and for each of the periods ended on December 31, 2022, compared with the following benchmarks:

Index Descriptions

The **Morningstar® Canada Liquid Bond Index** offers diversified exposure to federal debt securities guaranteed by the federal government, to provincial debt securities guaranteed by the provincial government and to corporate debt securities denominated in Canadian dollars in order to maintain liquidity. Small issuances, issuances with limited terms and issuances with credit ratings lower than those of investment-grade securities are excluded from the index.

The **Morningstar® Canada Large-Mid Index** measures the performance of Canadian stock exchanges by targeting 90% of shares, based on their order of importance in terms of market capitalization.

⁽⁵⁾ This information is derived from the Fund's Annual Audited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.

⁽⁶⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period.

⁽⁷⁾ Distributions were paid in cash or reinvested in additional units of the Fund, or both.

^(a) The net assets are calculated in accordance with IFRS.

⁽⁵⁾ This information is provided as at the last day of the accounting period shown.

⁽⁶⁾ Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period.

⁽⁷⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.

⁽⁸⁾ The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
